

# UltraQ Portable Pedestal Ideal for University Events and Athletics

## *Barrier-Free Admission Control Allows Guests to Self-Validate Entry Credentials*

**INDIANAPOLIS, April 10, 2024** – Alvarado is expanding the use of its fully wireless UltraQ Portable Pedestal beyond professional sporting and entertainment venues to provide admission control at ticketed university events, performances, and games.

The UltraQ Portable Pedestal credential reader offers barrier-free admission control with an easy-to-read LED screen that allows guests to intuitively self-validate entry credentials. With approximately 12 hours of continuous operation on a single battery charge, paired with a uniquely designed removable dolly bracket and built-in hand grip, the UltraQ Portable Pedestal provides true mobile access control.

"The UltraQ Portable Pedestal works seamlessly with GateLink10 – our widely used admission control software," said Tasha Birdwell, AVP product marketing at dormakaba. "We also offer DirectConnect API, which can communicate directly with third-party systems. It gives venues the flexibility to quickly deploy guest entry points wherever they are needed most."

The UltraQ Portable Pedestal offers fast and reliable validation in both indoor and outdoor environments, is easy to move, and available in dozens of finish colors. Additional features include:

- Integrated RFID/NFC reader
- Integrated barcode reader
- Fast entry throughput
- Bright TFT display
- Attendant notification lights
- Changeable custom screen graphics/audio
- Changeable Custom lighting
- Bi-directional entry/exit
- Wi-Fi communication
