

New EHD9000 Cast Iron Door Closer Features Single-Piece Construction

INDIANAPOLIS, March 27, 2023 – The new BEST EHD9000 cast iron door closer is a rack and pinion door closer with a single-piece cast iron housing. This versatile door closer was developed for high durability and consistent performance in challenging conditions. Its rugged, single-piece construction withstands high-stress applications in high-traffic areas. The EHD9000 also features a unique design to facilitate the installation and adjustment process for the installer.

“All adjustment points for the hydraulic functions and the spring force are front facing making them accessible at all times, including after installation and irrespective of the mounting position, said Bret Holbrook, senior vice president, sales at dormakaba Region Americas. “The EHD9000 was designed to be the most reliable, durable, rugged, and easy-to-install door closer for heavy use facilities in education, government, and healthcare.”

The EHD9000 features a non-handed design with backcheck and advanced variable backcheck as standard and delay action as optional functions. It is available with adjustable spring sizes 1-6+50%. The EHD9000 also has a full complement of standard and specialty arms and accessories available. It is ANSI / BHMA A156.4 Grade 1 certified.

Key Features Summary

Engineered to Last. Expertly cast in Germany, the EHD9000 has no weak points thanks to its single-piece cast iron design.

Installation Made Simple. The EHD9000 features a front-facing spring-size indicator and adjustment points to ensure that the appropriate spring size is installed for the application.

Easy-to-Adjust. Once it is installed, all adjustments can be made on the front of the EHD9000. This easy access assures optimal performance.

Adapts to Changing Environments. Self-regulating valves inside the EHD9000 closer body control oil movement when temperatures fluctuate, and maintain the closer's settings in heavy-use applications.

A Cover that Stays Put. The EHD9000's dual clamp cover strongly secures both ends of the closer.
