

New Geared Hinges Add Functional Versatility to Access Solutions

Indianapolis, IN – September 8, 2020 – New products from dormakaba’s renowned BEST brand offer additional security options, enhanced performance and expanded functional versatility. Continuous Geared Hinges now include 15 new profiles for a true hospital tip solution, including a removable/replacable quick connect and several solutions for 2” thick doors and doors/frames with a 3/32-inch frame inset.

BEST Continuous Geared Hinges are available in full mortise, half mortise, and half surface. Heavy weight and standard weight versions are available. Made of 6063-T6 aluminum, these hinges are easy to install and designed to last for the life of the building. These hinges feature heavy duty bearings. The exact number of bearings varies depending on product length ordered.

All models conform to the ANSI/BHMA A156-26- 1996, Grade 1 Standard. All have been tested and certified by UL to UL10C Standard.

Additional features include:

- Maximum durability by being lubricated with polytetrafluoroethylene
- Reduced installation time without sacrificing performance with a minimum number of precision engineered fasteners
- Lower labor costs with custom lengths and easy access panel and removeable electrical access section
- Available in anodized clear, dark bronze and black finishes
- Lead lined options
- Fire Studs

BEST Continuous Geared Hinges were formerly available through Stanley. For more information, visit stanleyhardwarefordoors.com.

About BEST
