

## **Mobile and Touchless Access Products a Necessity in the New Era**

*dormakaba's solutions create ideal, healthier environment*

INDIANAPOLIS – JUNE 11, 2020 – The coronavirus has drastically changed personal and professional views and expectations about cleanliness in buildings and high traffic environments. Convenient, reliable and safe for both the properties and visitors, dormakaba's [Mobile Access Solutions](#) and [Touchless Access Solutions](#) are excellent choices to reduce hand-to-door contact in high contact public areas such as healthcare facilities, restaurants, schools, offices and restrooms. They offer contactless, barrier-free and user-friendly access that assure secure entry, minimize high frequency touchpoints, and reduce the spread of germs.

### **Simplified Mobile Solutions Add to the Guest Experience**

dormakaba's Mobile Access Solutions are touchless, secure, end-to-end mobile credential applications utilizing Bluetooth Low Energy (BLE), the preferred communication technology for dormakaba mobile enabled RFID locks. Its BLE Ilco and Saflok RFID locks are the basis for a simplified transition to reliable mobile access. Properties can issue and manage keys on mobile devices to access rooms so visitors only touch their smartphone to check in, check out, ride the elevator or enter their apartment, pool or common area. dormakaba RFID locks currently in use can be converted to BLE.

### **Automatic Openings Offer Safe, Barrier-Free Access**

dormakaba solutions can transform any manual opening door into an automatic opening.

[Low Energy Swing Door Operators](#) can be used in new construction or retrofit onto existing doors. dormakaba's swing doors are designed for high traffic and heavy-duty use. Self-learning microprocessor controls adjust swing door speed for smooth opening and closing. Automatics function in low-energy or full-power mode.

[Automatic Sliding Doors Operators](#) are designed with attractive framing and sleek styles that offer unobstructed views and allow natural light into a building. dormakaba's sliding doors create easy hands-free access with a silent and smooth door opening. dormakaba doors are tested for one-million cycles in harsh weather.

[Touchless Actuators](#) deliver effortless operation for access control, door automation, alerts, and handicap accessibility. dormakaba's RCI switches provide functional control with a selection of options for momentary release, maintained release, time-delay, or emergency release. For increased operator flexibility, switches can be mounted as a remote switch and/or located at the door.

### **Expert Mobile and Touchless Access Consulting & Services**

dormakaba's Mobile and Touchless Access Programs can be tailored to meet any building's needs and simplify adoption. Our service team can conduct site visits for compatibility, offer touchless activation packages and perform free existing equipment general health check. [Contact dormakaba](#) for a free consultation to learn more about how to integrate mobile and touchless access solutions into any property.
