

## **New RAC5 Online Multi-floor Controller Improves Elevator Security**

**INDIANAPOLIS, March 3, 2021** – The new [RAC5 multi-floor access controller](#) (MFC) from dormakaba improves security for high-traffic elevator use, particularly in multi-family living environments. It is designed to operate in online or standalone applications. In online mode, the RAC5 MFC connects to a building's IT network and has the capability to restrict access up to 64 floors per device.

"The RAC5 MFC is a next generation remote access controller," said Melanie Greene, Senior Multihousing Product Manager at dormakaba. "It is mobile access enabled and supports Bluetooth Low Energy (BLE) credentials for use with dormakaba's [Mobile Access Solutions](#), allowing seamless movement by residents and guests throughout the property."

RAC5 provides ideal access control and security for multi-family facility elevator applications. Key user benefits include:

- Offers a modern aesthetic look and design by utilizing new or existing [SR Readers](#)
- Faster, easier, contactless NFC programming
- Optimal online functionality, including real-time audits with Ambiance or Community Software
- Secure authentication for improved security
- Up to 64 additional relays per device
- Easy installation
- Remote configuration and firmware updates that reduce maintenance
