

## **New dormakaba Keyscan KC Series Door Controller Offers Next Gen Software-based Functions**

### Enhanced Access Technologies Provide Greater Connectivity and Performance

**INDIANAPOLIS, March 27, 2023** – The new dormakaba Keyscan KC Series Door Controller consolidates advanced technical services and enhances integration options on a smaller board, which is half the size of its legacy counterparts. It is designed to provide unmatched access control design flexibility for exclusive use with dormakaba's renowned Keyscan Aurora software, a single solution for access control regardless of system size or complexity.

"Our new Keyscan KC Series Door Controller continues the legacy of quality and reliability of Keyscan," said Bret Holbrook, senior vice president, sales at dormakaba Region Americas. "The ability to perform electronic identification of all persons moving throughout a controlled environment relies on innovative hardware components and the software technology to authenticate identification of an individual against set permissions assigned to that person. The Keyscan KC Series Door Controller delivers this important functionality in tandem with the Keyscan Aurora software, while being easy to purchase, quick to deploy, and simple to support."

The new Keyscan Controller comes in three models to support 2-door, 4-door, and 8-door configurations.

Specific features include:

- Support for Open Supervised Device Protocol (OSDP) readers
- Over-the-Air (OTA) firmware updates
- New LCD screen display for instant troubleshooting
- A new Graphical User Interface (GUI) embedded browser set up
- UL294 (7<sup>th</sup> edition) certification
- Compatibility with existing Keyscan DPS-15 power supply
- Built in network communications
- New firmware will allow communication with existing OCB8 relay boards and IOCB1616 input/output boards for system expansion
