

dormakaba Adds Saffire EVO LZ-M to its Smart Lock Solutions

INDIANAPOLIS, April 10, 2024 – Security is one of the most important factors in a tenant's decision to rent an apartment, and utilizing smart locks for access control can help drive a more positive resident experience.

Recently released, the dormakaba Saffire™ EVO LZ-M is a heavier-duty Wi-Fi Mortise Lock that connects to the dormakaba Lyazon cloud and seamlessly integrates to Lyazon partner platforms for real-time events and user notifications. Soon the company plans to release the LZ-L Wi-Fi Cylindrical Lock and LZ-P Exit Device Compatible Wi-Fi Lock.

"The dormakaba Saffire EVO LZ cloud-connected smart locks allow easy access management of residences, amenities, common areas, and perimeters, all through a single integrated platform," said Derek Coats, national integrator sales at dormakaba. "With the addition of LZ-M and soon LZ-L and LZ-P, we will offer a complete smart-lock solution for almost any type of door. And when paired with third-party aggregators, the possibilities are limitless."

Saffire EVO LZ-M applications include:

- smart locks for new construction projects or retrofits
- real-time notifications, including events and access anomalies
- access rights management to allow or revoke access for residents and visitors in real-time, from anywhere
- ability to easily send digital keys or PIN codes to residents and visitors from a mobile device
- ability to use mobile device, RFID credentials, or PIN to access their residence or common areas
- convenient one-time or recurring access PINs to service and maintenance personnel
- control when and where residents and visitors can go throughout the building
- ability to quickly delete lost access media to keep the building secure

About dormakaba Lyazon cloud API:

The dormakaba Lyazon cloud API supports a multifamily property's evolving portfolio by integrating with a wide range of third-party systems and solutions for property technologies, smart home automation, energy management, resident portal apps, and more. dormakaba provides both Wi-Fi and wired access control hardware that is easy to configure into appropriately structured property management systems.
